3. Policy paper continues [17: 40-18: 40] (ODB)

Motivator: Kenneth D. Frøsig, Mick Scholtka and Christian Juel Nicolajsen

The papers have been prepared as a skeleton, with attitudes on student political issues, so that the Student Society has opinions on a number of topics. Thus, the work is not finished, the actual papers and elaborations are still missing before one can say that the Student Society again has adequate policy papers for all subjects. But if the papers are adopted in its current or edited version, it enables our mayor to comment on these. Next we think that the process must be that underlying papers are prepared, to which these bullets we are adopted are the starting point for the final papers.

Before reading

Mick: Papers not finished -> in process. Want to comment

After reading the study environment paper

Jacob: Should everyone have their own place of study?

Mick: Everyone should have an opportunity for a place to work

Obel: 'study space' can mean both group room and place to study

Obel: (written commentary: definition of 'study associations'?)

Christian: doubts the need for differentiation in this context.

Obel: writing. Came. 2% savings - wants deepening

Adopted: continuing work

After save. Read. record and access paper

Obel: Script. Come: wording 'study mass' how is this achieved?

Christian: Difference in student composition across study: structural

Obel: It must be just for everyone to enter. Therefore, no positive discrimination.

Like point 1, but not point 2 - may want to elaborate on 1.

Christian: (written correction)

Obel: agree

Obel: Script. Come: Do not want the abolition of rewards of efforts in the gym.

Christian: Creating unnecessary competition by unnecessary rewards of not necessarily better abilities.

Mick: agree with Christian.

StudenterSamfundet

Aalborg Universitet

Obel: Still seems, no matter the relevance of the profession, that extra work must be rewarded.

Vote on deletion of 'reward. Insats. : deletion adopted

Obel: Point of law dispute disagree .. Gives meaning that there a time limit.

Christian: lifting of time limit gives more passionate stud .. better legal claim.

Mick: Want to extend legal claim period

Vote: adopted legal requirements should be 5 years

Vote on continuation of paper work: adopted.

After save. Read. of paper: research

Obel: writing. Come: Funds historically conditioned. Previously, the studentersamfundet has fought for transparency.

Vote: Addition of item on transparency of allocation of funds: adopted.

Vote: continuation of paper work: adopted.

After save. Read. Quality in education paper

Obel: Important that something is written about PBL.

Vote on continuation of paper work: adopted

Vote: Living conditions paper: adopted.

Setting:

The papers are reviewed

The papers are adopted

[student policy at AAU \(student policy for AAU\)](#)

[Student policy outside AAU \(student politic outside AAU\)](#)

Break [18: 40-18: 50]

4. Paper about Aalborg as a study city [18: 50-19: 10] (DB)

Motivator: Mick Scholtka and Christian Juel Nicolajsen

As can be seen, the living conditions of political paper without looking at Aalborg directly as a study city are due to the fact that the Student Society handles all students' attitudes and thus also some students outside Aalborg (Copenhagen and Esbjerg as an example).

Nevertheless, we think it might make sense to make a more specific paper about Aalborg as a study city and what wishes we have about it. When our principal has meetings with the municipality, we can also participate in several forums, to develop Aalborg as a study city.

Setting:

Want the paper?

- *Obel: fine with general attitude, but also fine with specific to Aalborg.*

StudenterSamfundet

Aalborg Universitet

- *Mick: Agree with Obel. pay attention to time horizon.*
- *Vote: adopted.*

Inputs to the paper

- *Kenneth: Reading room example of improvement of Aalborg as a study city.*
- *Mick: Includes cutting of buildings, especially in relation to reading rooms -> proposals for extensions.*
- *Obel: Reading room nice, but students demand sparring places for groups. Especially if the PBL should be in focus.*
- *Christian: Aalborg paper is more about Aalborg as a study town, and not so much reading space etc. It must be a living-conditions policy paper for Aalborg.*
- *Jesper: do you also think about the lack of track offers?*
- *Christian: yes*
- *Mick: nice with talk about content. First, living conditions, so Aalborg's living conditions paper. Due to: living conditions in general also often apply to living conditions Aalborg. We think we should wait with Aalborg paper.*
- *Christian: If you want, you have to formulate a paper*
- *Mick: Yes, but Aalborg's living conditions seem to be based on living conditions in general.*

5. Election of representatives [19: 10-19: 25] (ODB)

Motivator: Kenneth D. Frøsig

At Studenterforum we have been granted the right to elect representatives for students to different organizations and groups. The moderator will go through the open positions that you can apply for.

DSF board (this can be chosen as a short trial period, since it can be taxing on the individual)

StudenterSamfundet representative in AAU election committee

Art committee

rep:

DSF - Kenneth temporarily (until 1 September 2019) vote: adopted

Student Union representative in AAU election committee - vote: None elected.

Obel: possible problem if rep. also counts votes.

Art out: no one chosen.

6. Break [19: 25- 19:35]

7. Start of studies for Student Forum. [19: 35-19: 50] (ODB)

Study start for student forum, having talked to the group about having posters set up all over the university, this will be 50 posters in total and they are up for 2 months, which means we are doing a PR stunt there will cost us about 1400kr . Beside from that I want a short debate on other ideas, with we should come to agreement on, since student forum have had a reduction in the amount of participant and it will be great to see some new faces and have some of our old participants to return two student forums.

Mick: can get new ones. Old may be reminded of it.

Christian: internal. Trans. Nice idea, spread the message further through the start of studies.

Vote on approval: adopted

8. Dinner [19: 50-20: 25]

9. Election debate [20: 25-20: 50] (ODB)

Motivator: Kenneth D. Frøsig

From today we are only a few days away from the election day, this means we can start making a small evaluation on the topic, the reason for this is a focus on what we could have done better and what we've done well doing this political busy time. We are going to discuss both elections (EP and the Danish parliament election). The reason for this is that we can make a guide for future elections, but also be critical about our own involvement. As the political spokesman I have tried to attend as many different debates, with a focus on having the following questions answered.

- Are you willing to remove the 2% savings in the education sector and if so, where will the money come from?
- Could your party be interested in removing the training ceiling?
- Will you be willing to remove su cuts from 2013 and get the SU to follow the approximately 2% annual inflation?

Kenneth: Experience: Better participate in two-person debate as they become more concrete.

Kenneth: Positive with the debut tone + participation in DSF's campaign. We should also participate in larger campaigns in the future.
