Der skal vælges repræsentanter til:

AKU:

Christian Obel was elected to the aku Committee. Alle voted for.

DSF's bestyrelse:

Kenneth Frøsig was elected for the DSF board. Alle voted for it.

## **5. Setup to the principal election committee [18:10-18:20] (ODB)**

Motivator: Kenneth D. Frøsig

The principal's office wants us to find a person for their election committee, since the student priests are no longer part of aau. So we have to point out a person to represent the students. This is because of §46 part 1 AAUs elections rules and the principal has a committee for the AAU student election, with is part of vip-representatives from each major scientific department has a TAP-representative and one from the student priests. But since the student priests are no longer part of aau, we in the studentersamfundet have been asked to point out a new member for the AAU election committee.

The papers have been prepared as a skeleton, with attitudes on student political issues, so that the Student Society has opinions on a number of topics. Thus, the work is not finished, the actual papers and elaborations are still missing before one can say that the Student Society again has adequate policy papers for all subjects. But if the papers are adopted in its current or edited version, it enables our mayor to comment on these. Next we think that the process must be that underlying papers are prepared, to which these bullets we have adopted are the starting point for the final papers.

Papers up for review and approval for further work:

[SU-policy paper](#) Approved by all

[Graduate, study-job and intern paper](#) Approved by all

[Quality in education](#) Approved by all
